Accent Names I suggest that you choose the best and most popular baby names that you like, including unique, common, vintage and trendy choices. Some pretty special pics from the BIGGEST day of my life so far: - With my gorgeous family, with my Nana: - With some friends: -...& just with my hubs: What an incredible day - one I will never forget, & I hope never to forget. Thanks for all the wishes & well wishes! Xo Natalie - I loved these Tiddlywiki pages in particular. Funny one about Punish the Witch. The one about Order of the Thorn (full of misinformation, but still amusing) and The Prince of Tides (which sort of makes me not want to go to a real pub...). - Vista has arrived. Everyone is making a huge fuss about a new and shiny user interface. But did anyone notice that the new features are a killer. You can now search for objects on your hard drive. Like any search engine you enter the search term and all matching files/folders are listed in a tree view (like every other search engine) - and the choice is yours: You can now search for object types: Do you know how to backup your photos, documents and music? I came across an article about a little app called "imageBackup", which allows you to back up all your photos, music and documents in a single image that can be imported to your image-editing software of choice (The Gimp, Photoshop, Paint Shop Pro, etc.) "imageBackup" allows you to back up your photos by creating an image from a folder containing your photos, audio files, or documents. It's a simple and extremely quick way to backup all your media. With just a few clicks, it creates a zip file that contains a photo, audio or document file with an image inside. The image can be viewed with your standard image viewer, or the file can be imported directly to your favorite photo editing software. imageBackup will create the zip file as well as the image inside. You don't have to do any of the work. Just the parts you want backed up are backed up. If you are
