The simplest way to build a website for those who know nothing about HTML. A powerful HTML editor that lets you build websites right in the WYSIWYG environment. Using an intuitive interface, you can build a professional website within minutes. Includes 20+ default templates and over 1000 pre-loaded user templates. Microsoft Internet Explorer 5.0.2800.1106 Win XP Microsoft Internet Explorer 5.0.2800.1106 Win XP Description Programming Internet Explorer 5.0, enhanced for

Windows XP. This version is compatible with Windows XP and Internet Explorer 5. You can use the Program to build your own website, by using various default templates. If you have a need for special templates, we recommend you download the ZIP file, install the templates, and put them in the templates folder. This will allow you to modify them and use them for your website. What's New Enhancements in the program: - In the browser panel, the items are displayed in the order they are added to the default templates. - In the toolbars, the items are displayed in

the order they are added to the templates. - When you have added a new template, the file is saved as.htm - Some modifications in Internet Explorer 5.0 - The help file is now in the program and it can be displayed when you press F1. - The default installation directory for the program is C:\Programs\Internet Explorer 5.0 - In Internet Explorer 5.0, when you install a template, all the current customization preferences for that template are stored in the registry. You can remove the changes you made to the template after you uninstall the template - You can now

see all the tabs in Internet Explorer 5.0 with a mouse click on the icon of the tab - You can now configure Internet Explorer 5.0 with the Internet Options window

Help Files The Help files are in the following locations: All languages are available in Help Files English Multi-language help files can be installed in one of the following locations.

Windows
C:\Program Files\Common Files\Microsoft Shared\Help\English.hlp
Macintosh
/Library/Help/English.hlp

When you install the help files in one of the locations above, the shortcuts to all

help files will appear in the Programs menu. If you want to install
