Aero is an all-in-one desktop and application launcher for Windows Vista. It aims to mimic the experience of a physical desktop, making applications and taskbar icons more accessible by moving them to the edge of the screen. It adds shortcuts to all frequently used folders and programs, and is also able to make custom icons appear on a Windows desktop. And, as a complete window manager, Aero also features the Aero Peek feature and desktop composition. This package includes icons for Aero Desktop only. The actual desktop shortcuts are included in the package. Emoticons are used to express emotions in email and instant messaging. They are small symbols used to enhance text and also make conversations more fun. You can put smiley or frowny emoticons on your forum posts, blog posts or even use them on your own business website. We have collected over 600 different emoticons, ranging from the simple smiley to the more complex multi-armed zebra (or zebra-esque). The smiley is a range of emotions with the simplest form being the smiley face. Lips, eyes, winking, and head bobs can all be used as facial expressions. Other smileys like the angry face, the bunny face, the heart-eyes, the tongue, and the thumbs up can be used as well. Adding some emoticons to your text increases its attractiveness. Emoticons can easily be used to cheer up one's mood in a conversation or to create a sense of fun in a casual conversation. Every day, tens of thousands of different emoticons are added to various software packages such as MSN, Hotmail, Yahoo, etc. People are even creating their own emoticons that mimic the facial expressions of animals. Emoticons. Many people are familiar with this "kidding" style of communicating through emoticons. For instance, :D >:D >:D for "haha" or "LOL". You can use them on blogs or forums, on your personal website, or in your own documentation to convey messages that cannot be easily conveyed through ordinary means. Features: - New style of emoticons in which lines of emoticons, in the style of the well-known Vista style (Windows 7), replace the corners of the box. The corners are kept, which means that this style allows you to change the font of the emoticons. This style of emoticons was designed by a leading international graphics designer. - The emoticons can be used both as photos and as graphics. - The required fonts can be downloaded for free from the website.
