The effects of tumor necrosis factor-alpha (TNF-alpha) on the abundance of brush border type II NaPi-2 (PiT-2) and NaPi-3 (PiT-3) transporters were examined in a mouse collecting duct cell line, M-1. Western blot analysis indicated that a 24-h exposure to 10 ng/ml TNF-alpha increased the abundance of the 125-kDa PiT-2 protein (molecular weight, 130 kDa). There was no appreciable change in the abundance of the 110-kDa PiT-3 protein (molecular weight, 105 kDa). However, the change in PiT-2 abundance closely paralleled a calcineurin-dependent increase in cytosolic free calcium. These results demonstrate a role for TNF-alpha in modulating the expression of proteins involved in phosphate transport in the kidney.Nintendo's CEO and president Satoru Iwata has offered a formal apology to fans for the company's handling of the Wii U's launch, including telling them the console "isn't good enough." Iwata made the comments following the company's announcement of a new system, the Wii U Deluxe set, on Tuesday. The system will be released worldwide this week and will come bundled with games such as New Super Mario Bros. U, Mario Kart 8 and Paper Mario. In an interview published with Japanese magazine Nikkei, Iwata said he accepts full responsibility
