• **Your Greeting from Staff Based on these fundamental features, we would like to introduce our original fantasy RPG A Touch of Evil which developed through close cooperation between us and the legendary Japanese production house TOSE. When crafting the setting we felt the mix between WESTERN style and Japanese folk such as SCUFFLE HAT or SEKIGAHARA'S NAMAMONO. We wanted to express the power of ancient monsters while ultimately trying to capture the aesthetics of today's youth who would love a fantasy that could give them a sense of adventure. In an effort to further challenge our target audience, we intended to develop a game of the highest quality. We hope you enjoy it as well...We appreciate your support! P.S. If you wish to purchase additional goods, we will of course take this into consideration.**

I tried this game and got bored after some hours, i have never played the original for sonic, and i liked the new animations and the graphics on this game, but i felt the difficulty on getting through the game, i found it boring when you get a good character level and have to start all over again.. so i feel this game is not for me. so i dont know how to get through and i am not in the mood to give all my money for it so i guess i wont get it. good game though when i play with friends I have played this game on the pc this game is very awesome it makes you want to help your village.It is a long game but that has made it so much more fun because it makes you get to know every villager in your village and they have different types of people who go to their shop and buy different things.there is so much to do in this game that it is almost too much to do.the controls are easy but it can be hard to get.there is also a leaderboard that you can check out if you want to see if you beat your friends or other people.
