A: In informal speech, don't knows are used by people who lack a more precise expression for the truth of an assertion. As can be seen in the conversation below, only when the speaker (me) wants to emphasize the truth of an assertion are don't knows used consistently, as is required by standard English: Before you say anything, listen to what I have to say. It has to be said in the right way to have any effect. I, of course, don't want to hear a whole lot of blather about your ulcer. I want to hear about the real problem with the hospitals in your area. That's where we have to start. We have to stand together. We have to care for each other in a way that benefits each other. It's my duty to you as a doctor, to your wife and kids. And it's my duty to our community. Let's take responsibility for each other and build a good life for our children. In formal speech and writing, don't knows are used only in conversations among friends and colleagues, and in the most

**ball handling and new ball touches with increased control and player agency. We have also invested heavily in Skill Shots and Pass Combinations to make it easier for you to take the perfect strike. Trick Shots, which were introduced in FIFA 17, are once again the most anticipated new feature in FIFA 22. Trick Shots allow players to launch a pass and trick the goalkeeper in the air - from the ground or with a spin pass. This year, we've created two new types of Trick Shots: Pass and Spin. Pass enables players to choose a target and fake a pass that will either be completed to the target or spin off-target. Spin enables players to spin the ball on the touchline, without control, and pass the ball to a nearby player. I am still exploring and experimenting with the song, and I think there is much room for improvement. It should be noted that the various elements were recorded in different sessions over the last week, and so there may be imperfections here and there, and some of the sounds and textures**
