Legendary Wizards is a 36 page Pathfinder Roleplaying Game class based supplementary adventure module for the Pathfinder Roleplaying Game published in October 2019 by N. Jolly, Cerise Herndon, and Hal Kennette. The module features new archetypes for the Mystic Marksman, Gunpowder Mage, Drake Maverick, and Master of the Arcane Arts, a Companion Guide, a new class: the Arcane Scholar, additional spells for existing classes, and 3 new Legendaries This module is intended to be a "Best Of" compilation of all the updates that we have been handing out over the last few years for the Pathfinder Roleplaying Game. It is the culmination of all of our efforts into the Pathfinder Roleplaying Game, such as the Mystic Marksman, Gunpowder Mage, and the Arcane Scholar archetypes, and it is designed to be an excellent beginner's level adventure and an excellent end game level adventure as well. The game mechanics were updated and streamlined to provide a solid and balanced experience for the new player and to provide a fantastic end game challenge for the Pathfinder Roleplaying Game veterans alike. The module is designed to be playable by anyone looking to get started with the Pathfinder Roleplaying Game, but it is intended to be a standard adventure for both the Pathfinder Roleplaying Game Core Rules and the Pathfinder Roleplaying Game Bestiary. As such, it takes full advantage of the mechanical changes that were added as part of the 10th Anniversary Supplement, but it will play identically to the Pathfinder Roleplaying Game Core Rules and Pathfinder Roleplaying Game Bestiary. The module was written using high-level rules, but the vast majority of the content can be handled with the Pathfinder Roleplaying
