
**Gone Girl (2014) 2014 DUAL AUDIO BDRip 720p -HELLYWOOD
Mkv**

[Download](#)

maybe fincher would have had better luck with gone girl if it had been made earlier in his career. if he hadnt already shown that he could make a dark, cerebral, and tense thriller, then he could have had the freedom to go further than he did with gone girl. this is not a murder mystery, or even a thriller. it is a romantic drama disguised as a murder mystery, and it feels much more like a romantic drama than a murder mystery. if you want a murder mystery, watch something like the girl with the dragon tattoo or the girl with the dragon tattoo 2. i'm a huge fincher fan ('se7en,' 'zodiac,' and 'the social network' are dazzling examples of his vision and artistry), but 'gone girl' brings nothing new to the table. it resembles his earlier works in style and tone, but doesn't expand upon them, and that disappointed me. make no mistake, the movie ranks high above most of the rubbish released in 2014 (despite its excessive length, it's a crackling popcorn mystery), but somehow i expected more from such a gifted director. such fincher staples as sterile elegance, an aura of dread, and intriguing characters pervade the proceedings, but even the layered narrative and shocking twists can't mask the presentation's auto-pilot nature, especially as 'gone girl' loses steam and careens off the rails during its final act. gone girl, a bracingly plotted, smartly constructed, and consistently absorbing thriller, is a must-see for any movie fan. in a town where everyone lies and no one's quite sure who to trust, the truth is often the most impossible thing to uncover. the story follows the disappearance of a seemingly ordinary suburban wife and mother. the disappearance of a four year old girl who lives in the same neighborhood catches the eye of the police, who work with an equally ambitious private investigator and a mousy, awkward fbi agent, who are brought on to help with the case. as the two private detectives and the fbi agent search for answers and dig for clues, they all inevitably come face to face with the dark and twisted underbelly of the characters they're investigating.

Gone Girl (2014) 2014 DUAL AUDIO BDRip 720p -HELLYWOOD Mkv

in addition to dolby truehd and dolby digital 5.1, the blu-ray edition of 'gone girl' features a dts-hd master audio 5.1 surround track and a dolby digital 5.1 surround track. both are very good mixes, but they are more aggressive and punchier than the dts-hd master audio track. the dts-hd master audio track is far more subtle, clean, and well-balanced, which is the best way to capture the ominous and somewhat static atmosphere of the picture. bass is tight and clean, but it does not dominate the proceedings. dialogue is clear and crisp, though, in typical dts-hd master audio fashion, it is on the low end of the frequency spectrum. surrounds are less defined than in the dts-hd master audio track, but they are not absent either. the lfe channel is very subdued, if not at all. the dolby digital 5.1 track is very similar to the dts-hd master audio track in the sense that it is clean and tight, but it is on the high end of the spectrum. surrounds are well defined, but not overwhelming. dolby digital 5.1 is a good choice for this film, as it sounds great in a restrained, but powerful, fashion. all three tracks are not bad, but the dts-hd master audio track is the best of the lot. this is another fine effort from fincher, and when he directs a movie, i'm a fan for the duration, but here i found it lacking. gone girl may be more satisfying than i expected, but it still moves too slowly, especially toward the end, and its plot twists are predictable. it's a smart, stylish, and well-made film, but it doesn't quite hold up to the director's best work, and it's not one i'd rush to see again. 5ec8ef588b
